

**Central Texas Groundwater Conservation District
Notice of Permit Application**

Notice is hereby given that an application for new well has been determined to be administratively complete. The Permit Application and this notice are in accordance with District Rule 3.66 New Non-exempt Wells Used for Domestic, Livestock or Poultry Purposes.

Specific Information

Applicant: George & Nancy Scoggins, 125 Dog Run, Burnet, Texas 78611

Address of well location: 165 CR 334, Burnet, Texas

Proposed completion in Trinity Aquifer

The well will be drilled on a tract of land smaller than 10 acres that was platted after September 1, 2009. The proposed location of the well meets spacing requirement from the property lines as well as other registered or permitted well locations. A well drilled under this provision may not be equipped to produce more than 25,000 gallons of groundwater per 24-hour interval (17.36 gallons per minute) and will be used for Domestic, Livestock or Poultry Use.

Operating Permits issued pursuant to § 3.66 are issued with provisions that limit production generally to only the amount of water that can be used beneficially for the specified purpose of use, instead of limiting production authorization to an express annual production volume.

Action by General Manager

It is the intent of the General Manager to approve the Permit Application on Monday, September 16, 2013.

Protest Application

At any time on or before September 15, 2013 an affected person may formally protest the application by submitting a contested case hearing request using the procedures provided for in Section 7.60 of the District Rules.

Information

For specific information about the permit application or submitting a contested case hearing request, contact the District at 512-756-4900 or 225 S. Pierce, Suite 104, Burnet, Texas.

Certification: I, the undersigned authority, do hereby certify that on August 26, 2013 at or before 5:00 p.m., I posted and filed the above notice with the Burnet County Clerk's office and posted a copy in the hallway of the Burnet County Courthouse in a place convenient and readily accessible to the general public at all times. I also certify that a copy of the notice was posted on the door and on an outside window of the District office and that they will remain so posted continuously preceding the scheduled time of said Permit Application I also certify that a copy of this Notice has been scheduled to be published in a newspaper of general circulation in the District no less than 10 calendar days before action on the said Permit Application. This Certification is in accordance with the Central Texas Groundwater Conservation District Rules §3.66.

Charles Shell, General Manager
